GAP explanation letter

Dear Campus France,

Date:

This letter written in my personal capacity is to explain the gaps incurred during my academic and professional career:

GAP Duration with reasons:

GAP Duration	Reasons
Jan 2022 - Jun 2022	I was enrolled in an online course on edx to learn more about accounting as I was weak in this area and wanted to master the subject before applying for a job
Jul 2022 - Dec 2023	I was enrolled in French language classes and learned the language full time at a private language coaching near my house. I studied until A2 and I am preparing for B1 at the moment so that I come prepared to study in France
Jan 2024 - Present	I am working on my physical fitness for past 5 months as I want to be fully ready for a new country including upcoming challenges due to climate/weather change as well

I confirm the above reasons are true in my personal capacity and the same can be verified, should there be a need to require any other document, information, please feel free to reach out to me.

Look forward to your assistance and support in my student visa application to study in the beautiful country of France at one of the most prestigious schools, KEDGE Business School for MSc International Business, starting Fall 2024.

Regards,
